Read the following passage then answer the question below

The great white shark is one of the most famous sharks in the world. The only shark that is larger than a great white is the whale shark. Great white sharks have been found in each of the world's oceans. Even though we can find them in waters as shallow as three feet (one meter) deep, these sharks spend most of their time in deep coastal waters.

The largest great white sharks are over six meters long. The great white sharks have huge triangle shaped teeth. The teeth of great white sharks are seven centimeters long and as they wear out, new teeth grow in to replace them.

One of the features of the great white shark is the dorsal fin. It rises out of the water when a great white swims near the surface of the ocean, The shark's tail has very strong muscles. The white shark sweeps the tail from side to side and reach speeds of upto twenty four kilometers per hour.

Scientists are unsure how long white sharks live. It is believed that their life span is almost thirty years. The great white shark is the most feared sea animal of the ocean, by both people and sea creatures.

Progress Check

Read the following text to answer the question below:

Pure water is a clear, colourless, odourless and tasteless liquid. All living creatures need water in order to survive. Forty to ninety percent of the weight of all living organisms is water. The human body needs water to get rid of wastes and to transport nutrients throughout the body.

Ancient Scientists thought of water as a basic part by which all other liquids are measured. At the end of the eighteenth century, a British chemist made water by using a mixture of hydrogen and oxygen. We now know that water consists of two parts hydrogen, the most abundant element in our world, and one part oxygen, the element that we breathe in order to survive.

Choose the right answer:

- 1- The main idea of the text is the importance of

a) the human body	c) oxygen
b) hydrogen	d) water

- 2- The word "abundant" in line 8 means:

a) present in small areas	c) present in great quantity

Canada is the second largest country in the world. It is in the northern part of North America. It is near the USA and Greenland. It is also next to the Pacific, Arctic, and Atlantic Ocean. It has the longest coastline in the world. Toronto is the biggest city but Ottawa is the capital.

A large number of people from almost every part of the world come to live in Canada. Around 35 million people now live in it. English and French are widely spoken in Canada. The Canadian people are friendly, polite and helpful. They are also famous for respecting laws and rules.

Canada welcomes millions of tourists every year. There are plenty of attractions to see like the Niagara **Waterfalls**, Lake Louise, and the CN Tower. Tourists can do a lot of activities, too. In the summer, they can go swimming, camping and cycling. During the winter, they can enjoy skiing, skating and playing hockey.
